

Business Motivational Speaker Jonathan Edison's Logistics Checklist

Your event success is our Top Priority! That's why we like to make sure all the basics are covered and everyone has a stress-free experience!

Getting started is easy! Please send us any information such as industry articles, company history, recent newsletters, or product brochures that will increase Jonathan Edison's understanding of your organization, products, people, and challenges. If possible, if we could also get an advance copy of the program that will be used for this event, that would be terrific!

Platform

With groups of 200 or more, Jonathan is more visible on a raised platform (12-18" is fine.) Being elevated makes it much easier for everyone to see, hear and enjoy the presentation.

Microphone

Jonathan prefers a lavalier wireless microphone. He finds the ability to move freely through your audience makes for a stronger connection, more engaged experience and a higher energy throughout the room. You'll find Jonathan's presentation is interactive and electric and just what your audience is looking for. Lavalier not available? Then please substitute a hand-held wireless microphone.

Audio/Visual Aids

Jonathan uses no visual aids or slide presentations, nor does he speak from a lectern or podium so you can check those off the list!

Head Table

If the head table is on the stage, please have it set far enough back so Jonathan Edison can work in front of the table. This gives him the room he needs for his dynamic presentation and allows for a stronger interaction with your audience! Please reserve seats in the audience for the people at the head table so they can enjoy the presentation as well. **Visit Jonathan's Site Online Today at www.JonathanEdison.com or Call 1-972-755-4231!**
